---

Bio: Ben Hopps is an accomplished jazz pianist and composer based in Florida. He draws deep inspiration from jazz legends including John Coltrane, Chick Corea, Antônio Carlos Jobim, and John McLaughlin. His original compositions blend swing, bossa nova, and fusion elements, ranging from high-energy, intricate solos with rapid key changes and odd time signatures to intimate, emotive ballads with sophisticated harmonic progressions. A dedicated performer since the early 2000s, Ben began exploring ragtime, classical, and blues at age six before fully immersing himself in jazz. Known for his technical precision, improvisational creativity, and engaging stage presence, he brings a fresh yet respectful voice to the jazz tradition.
